**President Trump announced the creation of 'Space Force' as part of the militarisation of space. This will need ground stations like USAF Croughton. The U.S. is spending £200m to turn U.S.A.F. Croughton into one of its' largest international intelligence hubs, building the new Joint intelligence Analysis Centre (JIAC). This major U.S. communication and intelligence base supports space communications, data links, military drone information, bomber guidance, missile defence, diplomatic communications, and command and control war fighting functions. It will be a key link in the 'chain' controlling US surveillance, armed drone and special forces operations across Europe, North Africa and the Middle East.**

**'RAF' Croughton main gate is on the B4031, off the A43, 2 miles North of M40 junction 10, just South of Brackley, Northamptonshire.**

**Travel west on the B4031, past the main gate, turn left at mini-roundabout on eastern edge of Croughton village, and park at signed site, not at main gate. Starts 12.00 car park, along B4031 to Main Gate, finishes 4.00pm. Food stall and disabled toilet at main gate. Bring flags and banners!**
